

# Fuel Management Services

Leasing has many cost and cash flow advantages. But the price of fuel is a variable that always requires special attention. So this is a subject that definitely has Union Leasing going the extra distance. We can help you with a focus on improved fuel management – streamlining your business expenses, decreasing your administrative costs, and improving your reporting.

## One Card. Many Advantages.

The Union Leasing Mastercard® Fuel Card gives your operators the freedom to fuel at practically any gas establishment. And it gives you the power to set spending criteria, monitor all card activities, and define the parameters of the card – from extremely narrow to nearly universal. You can set the criteria of use and monitor expenses in the way that makes sense for your business. Cards can be assigned to vehicles, individual drivers, and even multiple drivers; they can't then be used by other parties or for non-approved vehicles. You can also control precisely what can and cannot be purchased.

Here's what the card offers: universal acceptability, control of costs, web-based reporting, user accountability, and security.

## Strong Accountability and Control

With the Fuel Management Program, you can access real-time data that updates you on transaction activity, history, and purchase detail. To make changes or inquiries, 24/7, call the dedicated customer support center.

## Powered by Comdata®

The Union Leasing Fuel Management Program and Fuel Card are serviced by Comdata, a 35-year leader of innovative financial and accountability solutions for the transportation industry.
